Graphics/Multi Media Web design – MICT SETA (NQF Level 4)

2023

Believers Care Society Academy (054-707 NPO)

CITY DEEP ADULT CENTRE

S. Certificate (national certificate vocational -3rd year NQF level 4)

Grade 12 (2023)

CITY DEEP ADULT CENTRE

ADDITIONAL SKILLS

- User Interface (UI) User Experience (UX) Design-Designing visually appealing and responsive interfaces that align with brand aesthetics and user expectations.
- Front-End Development: Proficient in HTML, CSS and JavaScript to bring designs to life and ensure a smooth user experience.
- Responsive Design-Designing websites that adapt seamlessly to various devices, ensuring optimal user experience on desktops, tablets, and mobile devices.
- Webflow Proficient in using design tools like Wordpress and Figma, with a focus on creating seamless user experiences.

- Utilized Adobe Creative Suite (After-Effects, Photoshop, InDesign, and Illustrator) to design and refine visual elements, ensuring consistency with brand guidelines.
- Creative motion graphics designer with a strong command of animation principles and techniques.
- Intermediate in Motion Graphics industry-standard software such as After Effects, Cinema 4D, and Premiere Pro to produce captivating visual narratives creating 2D and 3D animations, kinetic typography, and dynamic visual effects for diverse projects.
- Continuous learning as I keep abreast of industry trends, emerging technologies, and design best practices to stay innovative and competitive in the field.

My Duties and Responsibilities as a Graphic/Web designer & Motion Graphics designer:

- UI/UX Designer I create visually appealing and user-friendly interfaces by combining design principles with a deep understanding of user experience through web design, ensuring websites not only look great but also provide optimal functionality and user satisfaction.
- Client Interaction engaging with clients to understand their brand, goals, and design preferences, provide project updates, and incorporate feedback throughout the design process.
- Graphic Designer: Creating custom graphics, icons, Product packages and visuals From logos that encapsulate brand essence to comprehensive visual identities that tell a cohesive story to enhance overall website aesthetics.
- Experienced in storyboarding and conceptualizing motion graphics to enhance brand messaging and storytelling.
- Video Editing: Edit and assemble video footages, combining motion graphics with live-action elements to create cohesive visual narratives.
- Creating and maintaining comprehensive design through documentation, including style guides and design specifications, to facilitate efficient collaboration and future updates.
- Innovative web designer adept at crafting responsive and user-friendly websites, integrating the latest design trends and technologies.
- Web Accessibility (WCAG) ensuring websites comply with accessibility standards to make them inclusive and usable for all users.
- Collaborate with other departments, such as marketing and content creation teams, to translate/integrate business requirements into engaging UI designs, UX designs & motion graphics seamlessly into larger projects.
- Client Presentations: I present and explain design concepts to clients, addressing questions and concerns to ensure client satisfaction.

- Skilled in translating conceptual ideas into impactful visual representations, ensuring brand consistency and a compelling user experience.
- Quality Assurance (QA) conducting thorough testing to identify and address any issues related to UI designs, UX designs, animations, visual effects, and overall design elements.
- Optimization: Optimize UI designs motion graphics for various platforms and devices, considering file sizes, resolutions, and playback requirements. Adding techniques to optimize website speed and performance, ensuring optimal user satisfaction
- Deadline Management: Manage project timelines effectively, ensuring timely delivery of high-quality motion graphics within specified deadlines.
- Technical Proficiency as i stay up-to-date with industry trends and advancements in User Interface ,Web design & Motion graphics software and technologies.
